

# All **WEST DRILLING**

Specialising in –

- Civil Project Management.
- Horizontal Boring.
- Underground Electrical Installations.
- Telecommunications installations.
- Water pipe installations.

# WHO WE ARE

Allwest Drilling Pty Ltd is a well-established, competent and professional Civil and Drilling company that specialises in Horizontal Directional Drilling (HDD). Offering project management / design implementation and delivery services to all industries, we construct trenchless pipe laying solutions for all industries.

Allwest Drilling provide innovative, experienced and professional personnel who navigate each project's unique challenges and conditions.

Offering professionalism in the most demanding environments, Allwest Drilling has a proven reputation for delivering superior results through safe, progressive and cost-effective project solutions.

Our recent major projects include;

- Pilbara Underground Power Project in Karratha, Western Australia.
- NBN Construction throughout the Pilbara / Kimberley's / Gascoyne regions

With a full ensemble of Drill Rigs, Excavators, Support Trucks, Vacuum Excavation Equipment and advanced trenchless capabilities, there is no project too big or too small that we can't deliver on.

# WHAT WE DO

Allwest Drilling has a fleet of HDD rigs and a full complement of support equipment. Sophisticated drilling software and instruments, advanced survey systems and steering technologies ensure safe and accurate installations in all geotechnical conditions. We are committed to staying at the forefront of the industry. Allwest Drilling continually seeks and adapts to the latest technologies to deliver innovative trenchless technology solutions.

Through our continued engagement with the industry and suppliers, we are committed to continued development of our HDD and Civil capabilities and resources, delivering quality works and installations on time and on budget.

# SERVICE INDUSTRIES

Allwest Drilling has provided professional drilling and civil services to the energy, mining, gas and civil construction sectors since 2011, and have been a leading provider of HDD services to Horizon Power for the past 7 years.

We have a highly experienced team of Management /Project managers and certified field-based supervisors, OH&S officers, drillers and delivery support personnel to complete all aspects of any given project.

With extensive experience in electrical, water, gas and communication installations, we approach every project with safety built into our work methods and culture.

As leaders in trenchless technologies in Western Australia, our fleet of HDD rigs and support equipment can meet all our clients' diverse needs.

We pride ourselves on delivering projects on time and on budget. Working on Local Projects, Allwest Drilling have successfully excavated and drilled over 280,000 meters within the Pilbara region and have installed over 350,000 meters of underground cable in some of the harshest conditions in Australia.
